Who is medipay?

medipay is a low-interest, convenient and uncomplicated installment payment service for patients with statutory and private health insurance. We have been working with our trusted partner, medipay GmbH in Siegburg, in the area of installment purchase/financing for many years. The experience and feedback from our customers has been consistently positive. Are you interested in the current installment conditions? Please ask your Airnergy consultant for them.

Who can benefit from medipay?

If you are a freelancer or private individual interested in purchasing an Airnergy Vitalizer in convenient monthly instalments, financing via an instalment or credit purchase is often suitable in this case. In principle, the medipay installment plan is open to all persons who have their primary residence in Germany, are employed or retired and have a disposable, regular income. If this is not the case, e.g. for students/trainees or housewives who are not working, a second or alternative borrower is required, e.g. a child, parent, partner or spouse who meets these requirements.

Remarks:

*Effective annual interest rate

All information (example calculations) without guarantee.

All previous information is therefore no longer valid.

Information according to § 6a PAngV; all amounts rounded.

An offer from our partner bank (subject to creditworthiness).
